

My Future Career - A Ballerina By Tiffany Ho

When it comes to future careers, I always think of a ballerina as a teacher. At first, I didn't really know what to choose. But now, I've thought about it and I made up my mind. You're probably looking at the title, so my choice is a ballerina.

It all started when I was two years old. My mom came back from work and started to play music to de-stress. Whenever I heard music, I would always dance to it so hard to it. So I danced freely to the music and at that moment, my mom knew that I was the material for dancing. She even recorded me dancing for proof for when I asked why I had to dance ballet.

At four, my parents enrolled me into PC Ballet Academy. (Yes, it's real!! X Search it if you don't believe me.) I was very excited to dance with many other kids. The teachers were very kind.

After seven years, I am now at grade 5 in ballet. I practice every Saturday at 9:00 AM. We do splits, turns, leaps, and other stuff. I've also made new friends in class. It's really fun if you try hard and put effort in it. When I grow up, I wish to be a professional ballerina and earn a good salary for my career.

My Future Career - A Ballerina

By: Tiffany Ho

When it comes to future careers, I always think of a ballerina or a teacher. At first, I didn't really know what to ~~choose~~ choose. But now, I've thought about it and I made-up my mind. You've probably looked at the title, so my choice is a ballerina.

It all started when I was two years old; my mom came back from work and started to play music to de-stress. Whenever I heard music, I would ~~also~~ always dance to it or hum to it. So I danced freely to the music and at that moment, my mom knew that I was the material for dancing. She even recorded me dancing for proof for when I asked why I had to dance ballet.

So at four, my parents enrolled me into DC Ballet Academy. (Yes, it's real!!) (Search it if you don't believe me.) I was very excited to dance with many other kids. The teachers were very kind.

After seven years, I am now at grade 5 in ballet. I practise every Saturday at 9:00 AM. We do splits, turns, warm ups and other stuff. I've also made new friends in class. It's really fun if you try hard and put effort in it. When I grow up, I wish to be a professional ballerina and earn a good salary for my career.

Once upon a time, there was an evil that was lived in a forest. The evil was known for magic and wanted to attack all the heroes. The townpeople tried their best to kill the evil. However, no one could defeat it.

But then, a hero came to the town. He was a hero that always killed the evils and monsters. He called Jacky. Jacky had walked the forest before and he had seen the evil. The evil ran away. Jacky tried to catch up.

Then, the evil escaped. Jacky tried to follow the blood he left behind. Finally, Jacky found the evil! The evil tried to attack Jacky but it's void. Jacky said, 'Calm down, I'm not attack you.' Jacky asked, 'Do you want to be my friend?' The evil said, 'Are you sure.'

At last, Jacky advised the evil not to attack people again. The evil started to be cheerful and try to meet more friends.

Why shouldn't parents ask so much of their children

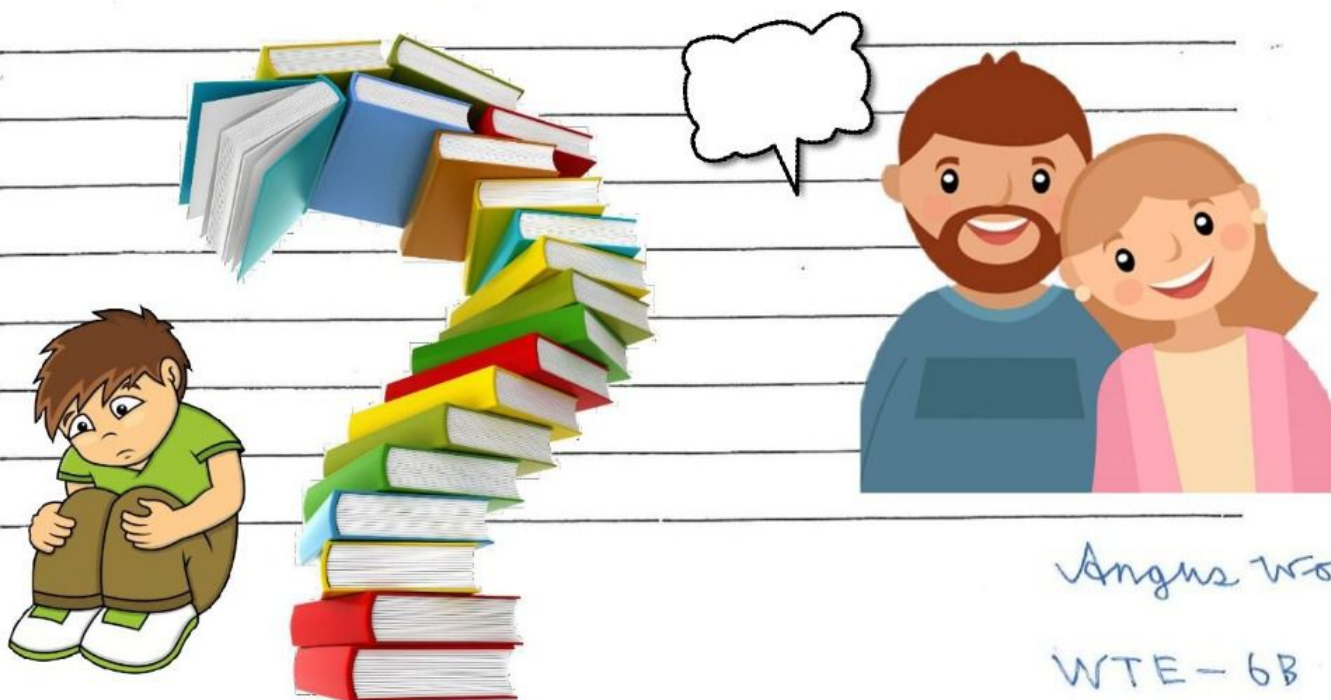

E-Smart Learning Centre

I think parents shouldn't ask so much of their children because they will be very tired and sad, and they might even be sick for joining too many activities. After they have done so much work, they won't have energy to go anywhere.

I think parents should discuss with their children to understand their interest before arranging the activities. They will be much happier and joyful and they will also be thankful so they will help parents to do housework.

So, why shouldn't parents ask their children to do many things? The children will be much happier if parents don't ask them to do so much.

A Cooking Competition

Today, My friend and I had a cooking competition. I wanted to cook curry chicken with rice. First, I fried the chicken.

After the chicken was fried, I took some curry powder and put it on the rice in the water and boiled it until it was cooked. I put the rice on the plate and put the chicken too, I used some of the curry sauce and put it on the plate. My Friend made French fries and burger. It had little ketchup and the fries were so dry, but my one was perfect. So I won the competition, I cooked one more to eat too, It was so delicious.

Apple Tree

I hope I can grow an apple tree, I hope my apple tree can speak and play games with me.

I want to put my apple tree into my big garden and put some flowers near my apple tree.

I want to grow vegetable, I want to water them every day because I want them to grow up well.

I hope to grow apple trees and vegetables because I can eat and share with my friends and family. I will take good care of them.
