

The Life of a Chinese White Dolphin

E-Smart Learning Centre

Hello, I am a Chinese white dolphin and today, I am going to share my story about life in the ocean.

What I like about the sea, is the cool water and I like to play with my dolphin friends, but I don't like people continuously sailing boats, and ships and oil tankers leaking black oil. The other thing I don't like is that bad people throw disposable products and plastic bags in the sea. My friend "Turtle" has eaten plastic bags in the sea before.

I look for food in the deep of the ocean: I will find fish and shrimps to eat. They are my favourites but I sometimes try unique foods like urchin, corals and plants under the sea.

I think people need to be more responsible and they should not use so many disposable products such as plastic bags, spoons, stirring sticks and more. They must not urinate in the sea, which is not just disgusting but also bad for the water.

This is my ocean story. I hope people of Hong Kong can be more responsible that they do not throw rubbish in the sea or use too many disposable products, which are bad for our earth.

My Grandpa

I know about an elderly person who is smart and that's my grandpa for my mum's side. My grandpa isn't like other elderly people. He is smart at everything. Also he's healthy and doesn't have any health problems because he does exercise every morning. That's why he's healthy.

My grandpa can also walk fast and far. Once my family and my grandparents went traveling together. When we were looking at the view slowly, we would not find my grandpa near us. He always walks really fast even when he is getting old and now he's 75 years old. I think that he's the most special elderly person that I know of. He has a lot of energy and can also play with teenagers. When you look at him, you would not think he's 75 years old as he looks younger than his age.

Also, my grandpa is kind to me. He cares for us. As he's funny, I love to chat with him. He's a good grandpa and he does things well. He makes me feel like he's still young and can still do many things.

A Centenarian's sports Journey

E-Smart Learning Centre

I imagine that I am 106 years old. I run because it can make me stronger and fitter. My second sport that I play is basketball because it can make me taller and stronger too. I practice shooting balls in the hoop. I play with my basketball team and have competitions with older athletes. We always win the basketball competitions. The third sport is table-tennis. I like playing table-tennis. It is fun. I like table tennis because I can move around, and practicing table-tennis is exciting. I sometimes win the competitions and I seldom lose the competitions. If I win competitions, I would feel ecstatic. If I lose the competition, I feel grieved.

The bear and the mouse

Once upon a time, a lazy bear, mouse and other animals lived in the forest. The mouse and other animals were looking for food to share for the coming winter. One day the mouse asked the bear "Why don't you look for food for winter?". The bear was angry and said "This is none of your business". And the bear felt sadly and went away.

When the Winter came, the bear had nothing to eat. The bear wanted to ask the rabbit for food, but the rabbit didn't give him any food because the bear always hurt the rabbit. The rabbit said to the bear "Don't you ever want my food!" and closed the door. The mouse saw the bear and invited her to his home for giving him some food. The bear felt very grateful and said to her "Thank you

mouse

bear

for giving me food." After that, they became the best friends ever in the forest.

The story teaches us not to be lazy and to share things with other people.

The Candy Kingdom

Candy Kingdom is a good place because when you go there, you don't want to leave.

The ground is as soft as cotton because it's made of cotton candy. The flowers are made of biscuits. The houses are made of gingerbread and inside there are gingerbread men. The lake is made of chocolate.....

All of the things can be eaten. The castle is a giant cake, so you need to bite into it. Because you can eat all of this so don't forget to brush your teeth.
