

A Rainy Day

Last week, I woke up and it was raining heavily outside. I saw a lot of lightning and I heard thunder. I felt disappointed because I wanted to play football in the park. Suddenly, I got an idea.

Then, I told my Mum the plan. My Mum woke my father and brother to play a chess with me. I won the game! I was so happy! Next we watched a fun TV show. I laughed so much!

Finally, we ate chocolate ice-cream. It was yummy! On this rainy day, I felt pleased, I liked to play games on a rainy day. I hope the next rainy day will come earlier.

Who is the stupid animal?

People think that the dinosaurs are stupid animals because they could not survive 65 millions years ago. But the truth is that the dinosaurs have ruled the world for 180 millions years. So who is the stupid animals, let me tell you!

First, let's talk about dinosaurs. Although some dinosaurs's brain are small like a dog, some dinosaurs could help each other to beat bigger dinosaurs so I don't think dinosaurs are stupid animals.

Second, let's talk about reptiles. Reptiles also are always thinking that they are stupid. But you know that, snakes are very smart. They hide themselves and wait for their food to show themselves. Some reptiles can hide themselves by camouflaged in a forest because their body color is the same as the forest, so they can hide themselves from other animals.

Third, let's talk about humans. Humans are mammals that are very smart. They can make weapons by themselves. But do you think that humans are the most stupid animals. Humans cut the trees, kill other animals and even fight with each other.

The last, I think humans are the most stupid animals. We have power but we use power to fight with each other for the money. What a stupid thing to do!

A Bad Day

I had an upsetting and angry day. When I woke up, I saw it was raining heavily. Today is Sunday. We planned to go swimming. I could not swim because it was a rainy day. We wanted to play basketball but it was raining and it rained very heavily! I was upset about the weather. We wanted to go to the park, play football and take a walk in my garden. But we could not do all the things we wanted to do. Finally we went home and we played video games but I was angry, because I do not like video games!

I like my home but some things are getting old. I want to change the colour of the walls. I want to change the colour of the walls because I like blue. I think we should paint our walls a sky blue colour because it will be like the sky.

I think we need to buy a new sofa bed because our sofa is too small. When my grandma visits me, I can open the sofa bed for them to sleep. I think my family will be happy for these new changes.
