

My Superpower

If I had a superpower, I would choose time travel. I think time travel is the best because time travel includes much superpower, such as teleportation and immortality.

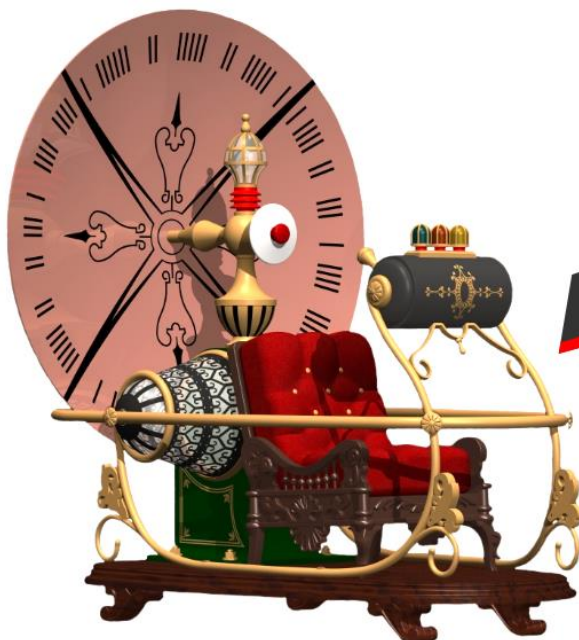

If I can travel through time, I will travel to my home when I forget to bring something, doing homework or I don't know what the answer is in the test. I will go home to check the answer and bring back the thing that I forget.

Secondly, I will travel back to be a child when I was old because I don't want to die.

Thirdly, I would travel back to show Albert Einstein a phone and other things that were invented after he died. He will be surprised and pleased.

Lastly, I will travel to 2050 to see who I will marry and what the world will look like. I am sure it will be lot of fun.

THE TIME MACHINE

Mary had to rush for her swimming class. She saw the red traffic light in front of her, but she decided to take her chance. Suddenly, a car dashed towards her and Mary was shocked. She was too scared and terrified that she tripped herself and fell right on the pavement. A girl suddenly rushed out from the crowd and tried to pull Mary back. Unfortunately, it was too late. The car didn't see them and crashed right on them. A horrible tragedy happened.

While everyone was shocked and paused, Mary tried to hold her phone with her last breath. Fortunately, the police came within 5 minutes and nobody died in this accident. Although Mary broke her leg and the girl broke her arm. They were glad that they were still alive.

Mary learnt a very important lesson. Always be careful and never sacrifice road safety even when you're in a hurry.

From: Hayley Ng
TO: Ben

Hi, I'm Hayley from Hong Kong. I'm your new pal. Let me tell you about myself.

I'm eight years old. I wish I can live in a luxury flat but I live in a small flat. My favorite food is sushi, hamburger and pizza. I like to read books after school.

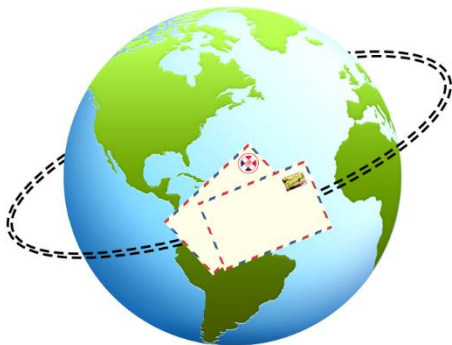

Let me tell you about my day. In the morning, I wake up at 6:30. I like to have McDonald's for breakfast, but typically I just have bread.

In school, my favorite subject is ICT because I like to play the computer. I told my dad that I want to be a gamer. Dad said he and mum want me to be a doctor.

I like singing. I'm not very good at music but I sing every day. Do you like singing?

Hayley

WTEZA

I live in the desert with a tent, a knife and a bow with arrows.

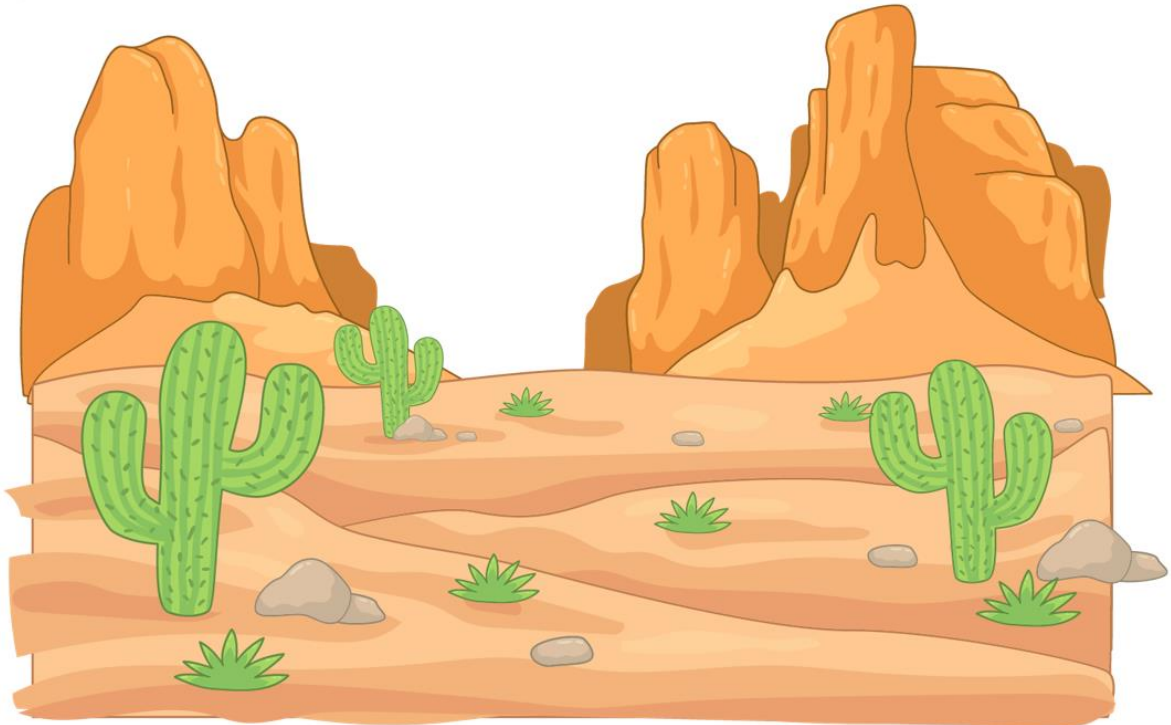

My tent is my home. I sleep in it at night. I use my bow and arrows to kill for food and my knife to cut up the food.

I drink lots of water from cactuses to keep cool. In the day time and make a fire to keep warm at night.

I like running my free time so I can be strong.

My friend Shadow

I have a friend shadow.

He follows me from forest to meadow.

How I do and how he does.

He plays the same things as I too.

He appears in light and fades in dark.

And leaves me lonely in the dark.

Changing his size with the angle of light.

Sticking on my feet and the ground tight.
